

USS NATHAN HALE CHAPTER 68
UNIVERSAL SHIP CANCELLATION SOCIETY

DATA SHEETS # 4

PEARL HARBOR DECEMBER 7, 1941

On that "day of infamy" Sunday morning December 7, 1941 at 08:00, there were 101 United States Naval ships present at the Pearl Harbor Naval Base, Island of Oahu Territory of Hawaii.

The historic raid was launched at 6 a.m. from six Japanese aircraft carriers 200 miles northeast of Oahu. The first bombs fell at 7:55 a.m., and the attack ended about two hours later with the bulk of the U.S. military might in the mid-Pacific temporarily crippled.

On that "infamous" Sunday morning, 2341 American servicemen lost their lives (1177 of that total were lost on the USS Arizona). Of the 101 ships in Pearl Harbor that morning, 18 were sunk or damaged, 15 were repaired and saw action later in the war.

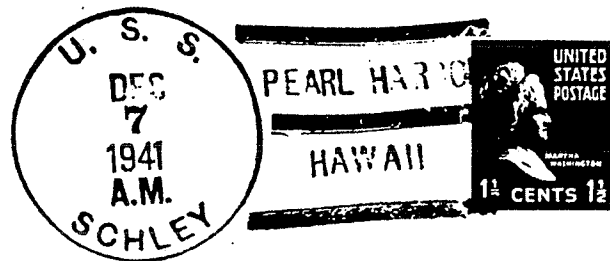

The Japanese surprise attack was so carefully planned that they lost only 29 of the 353 planes that they launched and 55 airmen. Nine crew members of midget submarines were also lost. Of the 33 Japanese ships comprising the attacking force, all but one were sunk during World War II.

The list that follows is from official Navy Department records of the attack on Pearl Harbor.

Very few covers survived that infamous day as mail was generally sparse on Sunday, and the early morning attack meant that all hands were at Battle Station throughout the day.

Of the 101 vessels, only 6 were without post offices aboard. They were the coastal minesweepers "COCKATOO", "CROSSBILL", "CONDOR" and "REEDBIRD" along with the tugs "Sunnadin" and "Keosanqua".

The final page of the Pearl Harbor Section lists a bibliography of related publications.

WHERE & WHAT IS
TOKYO BAY

There are several distinct areas and bodies of water either leading to or that are a part of the overall geographical references that are considered to be Tokyo Bay. Following are these references in order of entry into the Bay.

<u>Area</u>	<u>Latitude & Longitude</u>
1. Sagami Wan Situating to south and west of main entrance.	35° 07' N 139° 10' E
2. Yokosuka	35° 17' N 139° 41' E
3. Yokohama	35° 27' N 139° 38' E
4. Tokyo Bay Long shallow bay about 72.45 km long and about 10-19 fathoms in depth. Three large rivers enter into head of bay east of Tokyo; Edogawa, Nakagawa and Sumidagawa. Tokyo Harbor is at the mouth of the Sumida.	35° 43' N 139° 45' E
5. Kawasaki Situating in Tokyo Bay between the Tama River and Yokohama.	35° 32' N 139° 42' E
6. Chiba Situating on northeast side of Tokyo Bay.	35° 35' N 140° 06' E
